## ‘Gender Affirming Treatment’ Poll

 April 2024| CLIENT: | Family First |
| :--- | :--- |
| POLL DATES: | Wednesday 17 April to Sunday 21 April 2024. |
|  | The median response was collected on Thursday 18 April 2024. |

TARGET POPULATION: Adults aged 18+ who are eligible to vote.
SAMPLE POPULATION: Adults aged 18+ who are eligible to vote and who are contactable on a landline or mobile phone or online panel.

SAMPLE SIZE:
1,000 respondents agreed to participate -750 via phone and 250 via online panel.

SAMPLE SELECTION: A random selection of 10,000 NZ phone numbers (landlines and mobiles) and a random selection from the target population from up to three global online panels (that comply with ESOMAR guidelines for online research). If the call is to a landline, the person who is home and next has a birthday is asked to take part. Those who take part through an online panel are excluded from further polls on the same topic for six months.

RESPONSE RATE:
OMNIBUS STATUS:

WEIGHTING:

SAMPLE ERROR:
Multiple call-backs occurred to maximise the response rate.
The poll was part of a wider omnibus survey for multiple clients. The questions for this client were asked in the order they are reported.

The results are weighted to reflect the overall NZ adult population in terms of gender, age, and area.

Based on this sample of 1,000 respondents, the maximum sampling error (for a result of $50 \%$ ) is $+/-3.1 \%$, at the $95 \%$ confidence level. Results for sub-groups such as age and area will have a much higher margin of error and not seen as precise.

CODE COMPLIANCE: This poll was conducted in accordance with the Research Association New Zealand Code of Practice and the International Chamber of Commerce/European Society for Opinion and Market Research Code on Market and Social Research.

Do you believe that primary age children should be taught that they can choose their "gender" and that it can be changed through hormone treatment and surgery if they want it to be?

|  |  | Count | Col \% |
| :--- | :--- | ---: | ---: |

The UK health service (the NHS) has stopped the use of puberty blockers, which begin the gender transition process, for children under 16 as it deemed they are too young to consent. Do you support or oppose a similar ban in New Zealand on the use of puberty blockers for young people 16 or younger?

|  |  | Count | Col \% |
| :--- | :--- | ---: | ---: |
